Welcome to a new edition of the QROWD Project newsletter.

June 2018.
Dear QROWD Newsletter subscriber,
Since the previous newsletter, we’ve launched the second round of the QROWDLab in Trento, to acquire information on mobility in the city. We can also proudly announce that QROWD will be featured in the Smart City World Expo in Barcelona in November, with a pitch on **A smart solution to calculate the Modal Split – the case of Trento.** You can also check the upcoming events for the summer.
Enjoy the reading.
Yours,
The QROWD team

In this issue:
- QROWDLab 2
- A smart solution to calculate the Modal Split – the case of Trento
- Hybrid buses and the Future of London
- International Collaboration set to Spark Smart Mobility Innovation
- InnoTrans 2018 – The World’s leading trade fair for Transport Technology
- A summer of smart Mobility
- Upcoming events (July- September)

QROWDLab 2
QROWDLab’s second round was carried out from 28 May to 7 June in Trento, using I-log, the app developed by the University of Trento that allows gathering data by the citizens themselves. More information about QROWDLab 2 [here](#).

A smart solution to calculate the Modal Split - the case of Trento in the Smart Cities Expo World Congress
QROWDLab's second round was carried out from 28 May to 7 June in Trento, using I-log, the app developed by the University of Trento that allows gathering data by the citizens themselves. More information about QROWDLab 2 [here](#).
Hybrid buses and the future of London

Go Ahead London are a company that provide nearly a quarter of London’s buses, and they have recently introduced the new bus models, which are the 39 Enviro400H double-deck buses with Series-E hybrid technology. You can read more about them here.

International Collaboration Set to Spark Smart Mobility Innovation

International collaboration between the IOTA Foundation and the International Transportation Innovation Center (ITIC) is promising to spark smart mobility on a global scale. This will build a global alliance of smart mobility testbeds based on open source protocols and the IOTA data market platform. Read more about this here.

InnoTrans 2018 – The world’s leading trade fair for transport technology

InnoTrans is a trade fair specialising in all things Smart Transport. It will run from 18 to 21 September 2018, and will extend across the entire Berlin exhibition grounds. Here you can know more about it.

A summer of smart Mobility

Take a look at the key smart mobility-related conferences and events happening at various locations around the world. HERE
Upcoming Events

**Fab City Summit**
Paris, France
11 - 13 JULY 2018
Towards a more sustainable and accessible future for the cities that become locally productive and globally connected through collaboration and disruptive technologies. 500 participants specialized in the IoT domain: research centres, research projects, large industries, SMEs, developers, standards development organizations, policy makers including the European Commission.

**KDD 2018**
London, UK
19 - 23 August 2018
Bringing together researchers and practitioners from data science, data mining, knowledge discovery, large-scale data analytics, and big data. The BDV PPP will be present in the exhibition area with a booth where the progress and outcomes of the PPP projects will be presented.

**Open Living Lab Days 2018**
Geneva, Switzerland
22-24 Aug 2019
Annual gathering of the global Living Lab community. The role of citizens, open innovation and the potential of Living Labs in the context of the 2030 Agenda for Sustainable Development. over 1000 people each year, digital enthusiasts working at the most creative and vibrant edge of European tech; bringing people together ranging from the smallest start-ups, to regulators, to the biggest corporates.

**Euromicro DSD/(Digital System Design) & SEAA (Software Engineering and Advanced Applications) Conference**
Prague, Czech Republic
29 - 31 Aug 2018
International scientific, engineering and educational organization dedicated to advancing the arts, sciences and applications of Information Technology and Microelectronics. The conference covers the most actual trends in embedded, high-performance and cyber-physical applications, hardware/software co-design, software engineering and advanced applications in information technology for software-intensive systems.

**Smart City Day 2018**
Fribourg, Switzerland
13 Sept. 2018
This year: “Smart cities: up to what point?” Each year it brings together 300+ decision makers in the Swiss cantons coming from the economic and academic sectors.

**European Conference on Machine Learning and Principles and Practice of Knowledge Discovery in Databases**
Dublin, Ireland
10 - 14 Sept 2018
The premier European machine learning and data mining conference. 16+ years of successful events and conferences held across Europe.

**ITS World Congress**
Copenhagen, Denmark
17–21 Sept 2018
The ideal opportunity for all stakeholders to come together, discuss and make the necessary contacts to move initiatives forward and to develop their business by exhibiting and demonstrating state of the art ITS solutions.

**InnoTrans**
Berlin, Germany
19- 21 Sept 2018
The leading international trade fair for transport technology. Trade visitors from 119 countries and all segments of the industry.

**Future City EU**
Utrecht, NL
19-sep-18
250+ planning professionals, data experts & tech companies. brings together supply and demand and knowledge sharing, municipalities and tech companies can pitch their smart city challenge or solution during the Dutch Future City Conference

**Urban Transport 2018**
24th International Conference on Urban Transport and the Environment
Seville, Spain
19- 21 Sept 2018
Attracting a wide international spread of delegates from many different countries. Innovative systems, new approaches and original ideas need to be tested and evaluated. There is a growing need for integration with telecommunications systems and IT applications in order to improve safety, security and efficiency.
**ODSC Europe, 2018. Data Science Conference & Expo**  
London, UK  
19 - 22 Sept 2018  
One of the largest applied data science conferences in Europe: data science knowledge, training, and network.  
Latest AI & data science topics, tools, and languages from some of the best and brightest minds in the field.

**12th European Conference on Software Architecture (ECSA 2018)**  
Madrid, Spain  
24 - 28 Sept 2018  
The premier European software architecture conference, providing researchers, practitioners and educators with a platform to present and discuss the most recent, innovative and significant findings and experiences in the field of software architecture research and practice.

**Nordic Edge Expo & Conference**  
Stavanger, Norway  
25 - 27 Sept 2018  
3-day conference and exhibition. Unique meeting place for decision makers, change-making companies, start-ups, technology providers and investors. 4500+ visitors; 200+ exhibitors, 120+ speakers, 30+ countries
